

The Aged Brass Range

The Aged Brass finish has been designed to look beautifully antiqued upon installation and has been left unlacquered to patina even more over time. Alternatively, it can be polished to bring back some of the shine.

The real beauty of this finish lies in the mellow aged look of the brass, as though it has been an original part of the interior for many years. The toggles, dimmer knobs and push buttons are supplied polished but unlacquered, providing a subtle accent to the more muted finish of the plates.

Available In:

Dolly Switch	Button Dimmer
Rotary Dimmer	Rocker Switch
Sockets	European Socket
Combination Range	USB Charger Sockets
Home Automation & Dimming Control	

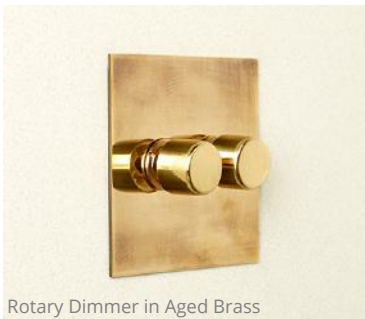

General Information

All switches conform to BSEN 0669/1. 13amp sockets conform to BS1363, 2amp and 5amp sockets conform to BS546.

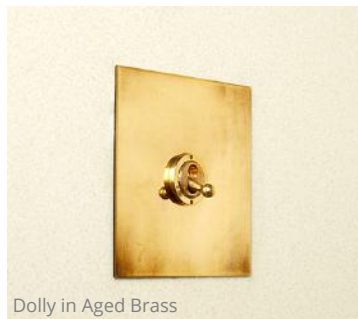

Single plates measure 86mm x 86mm and double plates measure 146mm x 86mm.

A full range of socket outlets are available, including power outlets, telecom and data, audio and visual, fused connection and floor sockets.

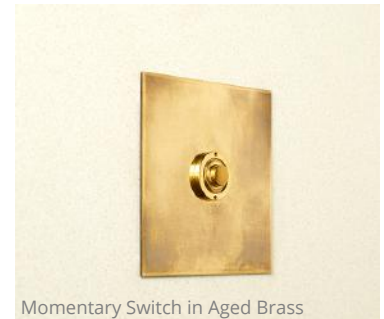

All Forbes and Lomax switches and sockets require British standard 35mm deep flush wall boxes.
