The Invisible Range

Inspired by the glass switches of the 1930s but with all the advantages of modern technology, the Invisible Lightswitch has become synonymous with Forbes & Lomax.

The transparent acrylic plates are secured without the use of fixing screws. The plate sits flush to the wall and is supplied with brass, nickel silver, stainless steel or antique bronze switches or dimmers.

Each acrylic plate has a 0.5mm underplate which can be either painted or used as a template where wallpaper is used.

Available In:

Dolly Switch
Rotary Dimmer
Sockets
Combination Range
Home Automation & Dimming Control

Button Dimmer
Rocker Switch
European Socket
USB Charger Sockets

General Information

All switches conform to BSEN 0669/1. 13amp sockets conform to BS1363, 2amp and 5amp sockets conform to BS546.

Single plates measure 86mm x 86mm and double plates measure 146mm x 86mm.

A full range of socket outlets are available, including power outlets, telecom and data, audio and visual, fused connection and floor sockets.

All Forbes and Lomax switches and sockets require British standard 35mm deep flush wall boxes.
